Reverse Engineering Code with IDA Pro

There are reports of a wild animal in Paeonia called the bonasus which has the mane of a horse but in all other respects resembles a bull; its horns are curved back in such a manner as to be of no use for fighting, and it is said that because of this it saves itself by running away, meanwhile emitting a trail of dung that sometimes covers a distance of as much as three furlongs, contact with which scorches pursuers like a sort of fire.
