With Gratitude: Barker Steel and the People Who Made It Work

The road winds through the spruce and hardwood forest, eventually descending rather steeply into a narrow valley before climbing out again to the top of the next ridge. Taking a broader perspective in a different sense, it is clear that the disenchantment of Cahiers with American cinema cannot be separated off from more significant political and economic developments in the US during the This was a period heavily marked by economic and military expansion by the US, Vietnam being the most obvious instance, of course, but also in the spread of transnational conglomerates, an activity specially relevant to the media industries, including film-making; and the nouvelle vague film-makers had now some more practical experience of the effects of these developments.
